Willard City Corporation 80 West 50 South Willard, UT 84340 1-435-730-1758 1-435-734-9881

Item	Description	Cost	Total
Regular lawn spray (3)	<p>Includes:</p> <ul style="list-style-type: none"> <li>Nutrient - iron/sulfur - for a darker green and stronger roots.</li> <li>Pre-emergent - helps to prevent weed seeds from germinating</li> <li>Fertilizer - with nitrogen to help green up your lawn</li> <li>Weed control - helps to selectively kill broadleaf weeds. It's rain fast after 1 hour. Water in after 12 hours.</li> <li>Grub Prevention - A systemic formula that goes to the roots when grubs or bill bugs feed.</li> </ul> <p><b>DO NOT MOW YOUR LAWN FOR 2 DAYS AFTER THIS APPLICATION.</b></p> <p><b>EDGING YOUR LAWN.</b> Make sure the trimmer is at a 90 degree angle to edge your lawn. Avoid slanted edging. The edge of your lawn should be thick to avoid weed or unwanted grass seeds from blowing in and germinating in these areas. If the edge of your lawn is about 2 ½ to 3 inches tall, this helps it from burning up in the heat of the summer. A short edge against concrete dries up faster and could even end up dying.</p> <p>We offer an insect spray around the perimeter of your house for only \$15.00 when we come to spray your lawn.</p>	610.00	610.00
